Dell Presents DA300 USB-C Mobile Adapter

Written by Frederick Douglas
02 February 2018

Dell publishes a video showing off the DA300-- a puck-shaped 6-in-1 USB-C adapter offering video, data and LAN connections complete with a self-contained retractable USB-C cable.

Described by the company as an ideal accessory for connecting multiple devices, including displays, printers and ethernet, the DA300 offers HDMI, VGA, DisplayPort, USB-A, USB-C and RJ45 ports. In turn it connects with PCs or laptops via retractable USB-C cable, and users can extend the cable by simply rotating the puck.

The puck is plug-and-play, and should be compatible witha ll major operating systems. Dell adds it is capable of 4K video and 10Gbps SuperSpeed USB data connectivity, and includes a business-class features such as MAC address pass-through, PXE boot and wake-on-LAN.

Dell still has to announce when DA300 is available, since it still lacks an actual product page.
