Lenovo updates the N5901 Multimedia Remote with Keyboard with the N5902, replacing the glossy black finish with a matte fingerprint-proof exterior and adding backlighting to the keys.

The company also includes an optical pointer and a "ridged" scroll bar.

It operates at 2.4GHz frequency, and has an operating range of up to 30 feet according to Lenovo.

Ideal for customers using home theatre PCs, installation requires plugging a USB nano dongle (included) and is compatible with Windows 2000, XP, Vista and Windows 7.
