

Changes in ALSO-Actebis Management

Written by Marco Attard
04 July 2012

Klaus Hellmich resigns as CEO of ALSO-Actebis following over 20 years of service in IT distribution, citing personal reasons "in order to pursue other interests outside of the Group."

Replacing him is former Prof. Gustavo Möller-Hergt, the man responsible for the integration project of ALSO and Actebis.

The appointment of Möller-Hergt also eliminates the dual management structure of CEO and COO-- resulting in the simplification and shortening of decision processes.

ALSO-Actebis management starts reporting directly to Möller-Hergt from July 2012.
