Buffalo Technology announces the availability of its latest portable storage solutions-- the MiniStation and DriveStation.

The MiniStation is lightweight and comes in a glossy piano-black finish. Being USB-powered, it provides instant storage space for users on the go-- and is comes in either 500GB or 1.0TB versions.

Meanwhile the DriveStation is available in USB 2.0 (with either 1TB or 2TB storage) or USB 3.0 versions (with 1TB, 2TB or 3TB storage space), and comes already pre-formatted for immediate use. Users can position the single-drive device vertically or horizontally for ideal space usage.
