Viewsonic says its V3D241wm-LED 3D monitor is ideal for both gaming and movies. The 24" screen is the company's first 3D-LED monitor.

Framerate is 120Hz with 2ms response time. Brightness level is 300 nits.

It comes with a pair of active shutter glasses.

The model features x2 SRS 2W speakers and is Windows 7 and AMD certified.
