

A Kaleidescape of Classic Movie Moments

Written by Marco Attard
06 September 2011

Feel like rewatching a favourite scene from, say, Raiders of the Lost Ark, but can't watch the entire film? Kaleidescape might just have the solution with the Kaleidescape Scenes.

Available as an automatic update for every Kaleidescape system, Scenes consists of more than 4000 classic moments from 700 films-- entertainment "snacks," as the company calls them.

It appears to be not only a new way for users to experience their favourites, but also a simple and well organised means to create a demo to impress potential clients.

Kaleidescape Scenes are already available in KEAOS 4.2, and are part of the Kaleidescape Movie Guide.
