

250GB isTop HDD for Notebooks

Written by Bob Snyder
05 October 2008

The top-selling HDD capacity for notebooks in six W. European countries became 250GB for the first time in August, with 23% share, outselling 160GB (22%) and 120GB (21%).

Context research says distribution sales (for France, Germany, Italy, Netherlands, Spain and the UK) also highlights 80GB in fourth position with 10% (stable over the previous month), while 320GB jumps from 5% (July) to 8% (August).
