Gartner thinks PC sales will do better...

Earlier this year Gartner expected a WW PC sales decline of -12% but **now it's only - 2%** (285m units in 2009).

WW 80.9m units shipped in 3Q 09, a 0.5% increase from Q3 08.

EMEA showed a double-digit decline in Q3 as PC shipments fell to 26m units, a -10.1% from Q3 2008.
