Zotac launches an addition to the Zbox range of ultra-compact form-factor (UCFF) PCs-- the Magnus EN92080V, a machine packing high-end laptop components in a chassis with a volume of all of 2.65 litres.

The Magnus EN92080V chassis is just 62.2mm tall, and carries an 8-core Intel i9 processor (with 45W TDP) and the laptop version of the Nvidia GeForce RTX 2080 graphics processor. It can also house up to 32GB of DDR4-2666 memory in two SO-DIMM slots as well as one 2.5-inch storage device and an M.2 SSD.

In terms of connectivity, the PC offers a Rivet Killer AX1650 wifi + Bluetooth 5 adapter, two ethernet ports (one GbE, one 2.5 GbE), two USB-C connectors, four USB-A connectors, four display outputs (one DisplayPort 1.4, two HDMI 2.0b, one USB-C), SD card reader and two 3.5-mm audio jacks for headphones and a microphone.
