Zotac launches its latest mini-PC-- the Zbox nano VD01, with a palm-sized package packing a VIA dual-core CPU.

Inside are a VIA Nano X2 U4025 1.2GHz dual-core CPU and a VX900H media system processor (with VIA Chrome9 graphics processor and ChromotionHD technology) able to handle HD media playback.

It also has room for a 2.5" SATA HDD and x1 DDR3 SO-DIMM module-- and Zodac offers a Plus model with a 320GB HDD and 3GB of DDR3 RAM preinstalled.

Ports include x2 USB 3.0, HDMI, DisplayPort and gigabit ethernet, while Bluetooth 3.0 and 802.11n radios provide connectivity.

Zotac also includes an integrated IR receiver, MCE-compatible remote and VESA 75/100 mount, making the pint-sized package ideal for customers' living rooms.
