

My Passport HDD Range Gets 2TB Storage

Written by Marco Attard
21 March 2012

WD refreshes the My Passport portable HDD range-- with storage extending to up to 2TB (a first from the company) and new enclosure designs.

The drives are available in either white, black, silver, blue and red, all running on a 2.5" HDD. Connectivity comes through USB 3.0.

Pre-loaded with WD SmartWare automatic backup software and WD Security for password protection and hardware encryption, WD offers the My Passport drives in 500GB, 750GB, 1TB and 2TB capacities.
