

## Wal-Mart Drops Low-Cost Linux PC

Written by Bob Snyder  
20 March 2008

---

No more will you see Everex's Linux-based PC in WalMart stores. The customer response to the US\$199 Everex TC2502 Green gPC desktop was not as high as expected, says the store.

Wal-Mart was supposed to continue to sell the Everex PC through its Web site. But if you look, the web says "Not available online."
