Xiaomi announces a 2019 version of the MacBook-style [Mi Notebook Air](#) , with an update featuring a choice of 8th generation Intel processors within a metal body all of 5.71mm thick.

The Mi Notebook Air is a 12.5-inch notebook with a 1920 x 1080 display surrounded by 5.71mm bezels. It comes in a number of configurations, with either an 8th gen Intel m3-8100Y or Core i5-8250U processor. The m3 model comes with 4GB of memory and 128/258GB storage, while the i5 model includes 4GB of memory and 256GB storage.

As mentioned earlier, the laptops come in a metal body, and include Harman Kardon audio with DTS surround sounding. Xiaomi does not detail the capacity of the battery, but does say it supports fast charging allowing users to get a 50% charge after plugging the laptop for all of 35 minutes.

The 2019 Mi Notebook Air is available by end March 2019, at least in Xiaomi's home China.
